

Elevate Enterprise Cybersecurity

Broaden Your Cyber Protection and Privacy
with LTS Secure

Company Profile

LTS SECURE towers as a distinguished Enterprise Cyber Security Solution Company, leveraging the transformative capabilities of Artificial Intelligence (AI) and Machine Learning (ML) to enhance the cybersecurity.

Our mission is centered around the detection, analysis, and automated response to a spectrum of cyber threats and advanced attacks spanning all layers of networks & IoT, cloud environments, user interactions, data repositories, and applications.

Our Promise

Empowering organizations with Future-Ready security solutions.

- Leveraging global expertise, we implement highly effective cybersecurity strategies to fortify and protect your business.
- Our intelligence-driven platform powers Security Operations Centers (SOC) for enterprises worldwide, spanning USA, UK, Middle East & South East Asia.

Extend

Comprehensive Threat Detection Across All IT Layers

Detect

Centralized Alarm Management and Risk-Based Prioritization

Remediate

Automated Response with Enriched Mitigation Strategies

Our Products

Log Management

Unified log centralization for efficient forensic analysis

SIEM + UEBA

Real-time threat detection through advanced analytics

SOAR

Intelligent automation and orchestration

Cloud Security

Comprehensive cloud visibility and control

Identity Management

Secure access control and privileged account management

LTS Secure aims to deliver end-to-end cybersecurity solutions that improve the operational efficiencies of customers in the global marketplace

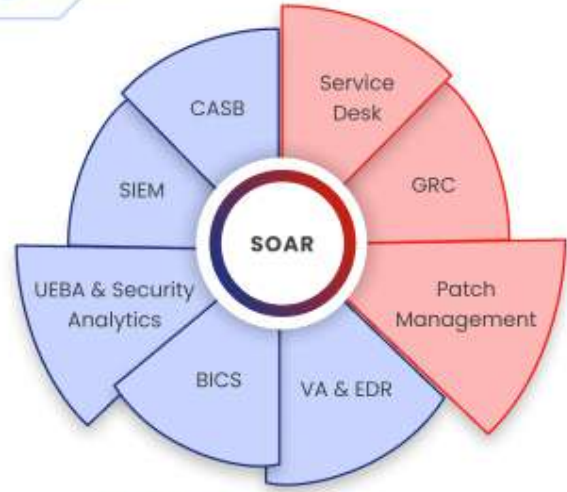

Our Solutions: vSOCBox™

• MDR (Managed, Detection and Response):

Proactive cyber threat detection and response with a managed service approach.

• SOC as a Service:

Managed Security Operations Center providing continuous monitoring, analysis, and response.

vSOCBox™ Suite

Our Platform: M-XDR

LTS Secure Cyber Defender 360:

Managed 24*7 cyber threats, advance attack and vulnerability detection & prevention from all the layers. Single solution for cyber infra such as endpoint, network, servers and cloud, and applications.

Deliverables:

- Advance threat and attack detection & prevention
- Vulnerability detection
- 24*7 Real time incident reporting
- Cyber alarms and GAP reports
- Unified Endpoint Protection

M-XDR Benefits

- Single platform solution for entire cyber infra security
- Reduce cost by 50% on existing cyber security solution
- No hassle to upgrade & support
- Protection, Automation with advance threat intelligence in single tool

Metrics Delivered by M-XDR Platform

Globally acclaimed cybersecurity company

ONE Solution for monitoring data breaches across entire cyber infrastructure

ONE View of unknown threats and attacks visibility for end-point, network, cloud, IoT, users & applications

NEXT-GEN security empowering CIOs, CISOs, & CEOs Custom Control rights to reduce audit and compliance time

Who trusted us :

Global Presence

- Operational in 4 countries on all continents.
- More than 165+ technical support consultants worldwide
